

Sakshi Neeraj

IT Operations Platform Engineer — DevOps Engineer
sakshi1neeraj@gmail.com — 9818541763 — linkedin.com/in/sakshi-neeraj

Experience

Shell - IT Operations Platform Engineer

Aug 2024 – Present

- Managed AWS infrastructure with Terraform and automated GitHub Actions CI/CD pipelines for 40+ Dockerized microservices on Kubernetes Platform reducing deployment time by 70% through parallelized execution
- Enhanced platform reliability and observability by implementing Dynatrace Synthetic Monitoring across 7 environments in 3 global regions. Developed a Python LangGraph-based AI Agent integrated with a custom MCP server for automated platform health monitoring contributing to 98% SLA in the team
- Led DevSecOps and FinOps initiatives by integrating Wiz container image scanning for SCA to improve security posture and building Python automation for Databricks SQL Warehouse finance analysis to enable cost optimization

Samsung - Intern

Jul 2023 – Apr 2024

- Trained Deep Learning Models for music genre classification achieving 90% accuracy

Centre for Development of Telematics, Govt. of India - Intern

May 2023 – Jul 2023

- Built Python based SSH Automation enabling secure connectivity and parallel execution across 5 remote servers

Genpact - Intern

Jul 2022 – Sep 2022

- Performed Data Analysis and Visualization to identify retention drivers for 500+ employees

Skills

Platform Operations: AWS, Kubernetes, Docker, Terraform, GitHub Actions, ArgoCD, KubeFlow, Golang

Observability & SRE: Dynatrace, Prometheus, Grafana, SLA/SLI, ServiceNow

Software Development and Programming: Python, API Integration, YAML

Systems and Security: System Design, Linux, Networking, Bash Scripting, SonarQube SAST, Dependabot SCA

Certifications

AWS Certified Solutions Architect Associate — Terraform Associate — Kubernetes Cloud Native Associate

Google Cloud Generative AI Leader — AWS AI Practitioner — Azure AI Transformation Leader

Databricks Data Engineer Associate — ISC2 Certified in Cybersecurity — SAFe Certified DevOps Practitioner

Certified Kubernetes Administrator (CKA in progress)

Achievements

Recipient of Shell Global Recognition Award for contributions in DevSecOps

100% Scholarship Holder in B. Tech Computer Science Engineering

Awarded for IEEE published Research Paper for Artificial Intelligence during B. Tech

Education

B.Tech in Computer Science Engineering with Data Science Specialization (2024), Amity University: 9.16 CGPA

CBSE Class XII (2020): 94.8%, Class X (2018): 93.4%

Projects

Infrastructure as Code and CI/CD for Automated Container Releases

- Provisioned AWS ECR and GitHub OIDC IAM authentication using Terraform, and automated Docker image build and push workflows with GitHub Actions for secure and continuous application artifact release

News Authenticity Detection Platform – Containerized Deployment on AWS EKS

- Containerized a News Authenticity Detection ML system (91.5% accuracy) using Docker and Flask REST APIs
- Deployed the application on AWS EKS using Helm charts with Deployments, Services, ReplicaSets, and ConfigMaps

Real-Time Google Cloud Engine Monitoring Dashboard

- Built Python monitoring pipelines for 10+ GCE instances, to store system metrics in CloudSQL and analyze via Power BI enabling optimized deployment strategies

Folder Structure Management Agent using Custom MCP Server

- Developed an AI-powered agent using Python and custom MCP (Model Context Protocol) to automate folder and file management operations
